PRODUCT DESCRIPTION

Management system for providing quality analysis of Ethernet networks
Barrett, R

RND's Ethernet brouter family — an inside look **Lifton, R**

PRODUCT REVIEW

Apricot reap the fruits of their labour
Codex modem management with IBM's NetView

Comms processor range expands
DEC penetrates workstation market
Ethernet controller family
HEP promises SNA flexibility
Hybrid internetworking 'brouter'
Intelligent adapter cards boost network performance

Key release in Codex network strategy
Managed data network service from BT
Management tools launched

Microsoft offers 2nd-generation e-mail
Networks 89 exhibition
TCP/IP products loom large
US management offerings
Videofax
Videotex access from DEC terminals
VINES opens to customized applications

PUBLICATIONS

All change for European LANs
ATM/POS increase predicted
... but data comms forecast looks good
Customer Premises Equipment
Data-over-voice market
Europe: gloomy picture for data connections ...
Evolving communications technology
Explosion in LAN sales
Fast growing small mux market

Fax growth in Western Europe
Intelligent networks take off
ISDN in European markets
Japanese satellite services
Marked expansion in satellite use for Europe's data comms transmission
Networking costs
Networking for US schools
Neural network worldwide markets
NSA influences encryption market
Office automation markets
Open systems handbook
Raising the voice market
Retail welcomes EPOs
Security for LAN managers
Smart: ready for take-off
Smart standards will boost market
Snowballing fax
X/Open updates CAE guide
X.400/OSI in the 1990s

SECURITY

Security issues in the use of smart cards **Reid, M A and Madan, M S**

STANDARDS AND PROTOCOLS

ASN1: an Abstract Syntax Notation-One Support Tool **Cleghorn C and Ural, H**
CEPT publishes first NETs
Conformance testing of Office Document Architecture (ODA) **Carr, R and Dawson, F**
COS launch interoperability programme
ECMA works on data standards
First international EDI standard
Font Information Interchange Standard
ISO/IEC 9541 **Smura, E J, Beeton, B, Savage, K and Griffie, A**

Interworking between teletex and OSI systems **Alfonzetti, S, Bertocchi, G, Casale, S and Lombardo, A**
ODA: a document architecture for open systems **Hunter, R, Kaijser, P and Nielsen, F**
Office communications **McConnell, J S and Manros, C-U**
Piggybacked token-passing access protocol for multichannel optical fibre LANs **Ryder, A, Cusworth, S D and Senior, J M**
Product certifications programme
Solidarity on network management from open systems consortia
Standard Generalized Markup Language and related standards
Smith, J M
Standard Page Description Language **Robinson, P J and Strasen, S M**
Trans-Atlantic testing agreement
US and Europe united by OSI test integration
User system interaction standards
Holdaway, K and Bevan, N
Vendors to develop APIs for X.400

TECHNIQUES

Modelling the logical structure of flexible manufacturing systems with Petri-nets **Stotts, P D, Newcomb, R W and Cai, Z N**
Techniques for the integration of packet voice and data on IEEE 802.3 LANs **Dunlop, J**

USER FOCUS

Delivery of textual files between national administrations using teletex
Pangalos, G
Essentials of successful corporate electronic mail **Reardon, R**

COMPUTER SYSTEMS

Science and Engineering

the international journal on the theoretical developments in computer systems science and their applications in computer systems engineering

Coverage includes fault-tolerant computer systems, local-area network engineering, parallel-processing systems, theoretical analysis of computer systems, distributed systems, design of large software systems, systems performance evaluation, real-time systems, special-purpose systems, and specification and design issues for multiple cooperating processor systems.

Computer Systems Science and Engineering is essential reading for researchers, developers, vendors and users of computer systems.

For further information and sample copy, please contact: Geraldine Hills, Butterworth Scientific Limited, PO Box 63, Westbury House, Bury Street, Guildford, Surrey GU2 5BH, UK. Telephone: (0483) 300966; Telex 301563 SCITEC G; Fax: (0483) 506254.

Prospective authors can obtain copies of the guidelines for authors from the Executive Editor at the above address.
